"It is my pleasure to write this letter of recommendation for Devon Sorenson. I managed Devon directly for two years at Mazal Group. In my years of expertise, I have found that it is a rarity to find designers as talented and dedicated as Devon."

I first met Devon at Mazal Group, where she was hired as a graphic designer. She was very enthusiastic to lend her skills in this fast-paced and demanding cosmetic and beauty company. Devon quickly established herself as a unique and creative designer, frequently taking on large projects with demanding deadlines. She went as far as learning new software to expand her design skills, as well as the capabilities of the company. She welcomed these new projects and responsibilities, often performing them with little to no supervision.

Her attention to detail and expert knowledge of the Adobe Creative Suite allowed her to create social media artwork, videos, posters, brochures, packaging, magazines, business cards, and websites for Mazal Group. She was a team player and got along well with all employees. She was great at communicating and asked all the right questions to push projects forward."
